Mail Stop PATENT APPLICATION  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

Dear Sir:

Enclosed are three (3) sheets of Form PTO/SB/08. In accordance with 37 CFR §1.97(b)(2), this Information Disclosure Statement is being submitted concurrently with the filing of the above-identified application. Copies of all listed documents have been supplied previously in parent application No. 10/372,588.

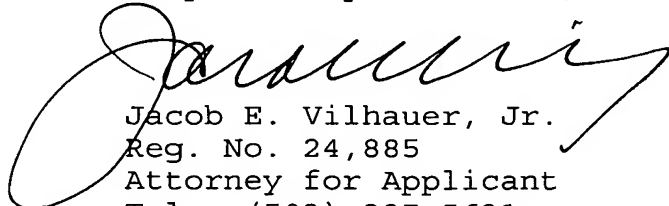

Non-patent document CA is a copy of portions of the current web site of Lazzeroni Arms Company of Tucson, Arizona, showing the Lazzeroni "Patriot" 7.82 mm (.308 caliber) cartridge which was publicly introduced in January, 1998. The cartridge

case (without bullet) is specified to have an overall case length of 2.030 inches. All of the diametric dimensions of the cartridge case from the base of the cartridge to the bottom of the frusto-conical neck appear from the enclosure to be in excess of .55 inches, and the ratio of case length to the diameter at the bottom of the neck appears to be approximately 3.62. It has been alleged by others that drawings of the foregoing Patriot cartridge existed in late 1996. However the Patriot's foregoing length-to-diameter ratio of approximately 3.62 is significantly greater than the corresponding maximum ratio of 3.5 defined by the claims herein.

In accordance with 37 CFR §1.97(h), the filing of this Information Disclosure Statement shall not be construed to be an admission that the information cited in the Statement is, or is considered to be, material to patentability as defined in 37 CFR §1.56(b), nor that it constitutes prior art with respect to the present invention, unless specifically designated as such.

The person making this statement is the attorney who signs below on the basis of the information in his file.

Respectfully submitted,

Jacob E. Vilhauer, Jr.
